

LAND & ACTIVITY EXPERIENCE

DONKEY TREKKING

talea
COLLECTION

TCE013

Departure for **Francavilla Fontana** to spend an unusual day in a **donkey farm** plunged in an area of olive, figs and almonds trees in the **Valle d'Itria**. A stroll accompanied by donkeys is not only an interesting historic and naturalistic adventure, but even a relaxing experience and an emotional and cultural enrichment for all the family: the slow pace of the donkey let you admire the beautiful colours of the Apulian land while you will find your inner balance and pace. You will pass the "paretone messapico", the antiques walls of the city of **Ceglie Messapica**, which dates back at V-IV b.C, to reach the "specchia Capece", an antique megalithic monument of 20 metres of highness, which was initially formed by great concentric chalky stones. The word "specchia" comes from the Latin word *specula* (observatory), indeed it was conceived as a place to pause and guard the land, so to efficiently defend the area. The stroll lasts approximately 2 hours and a half and it is provided even a little snack and the insurance. It is necessary to have at least 4 adults booked.

Time estimated for the activity: 5 hours / Every day from May till November

PRICE PER PERSON - Minimum 4 ADULTS - Maximum 10 pax	€ 180,00
