

LAND & ACTIVITY EXPERIENCE

PIZZICA LESSON

TCE017

Puglia combines **ancient traditions** with modern lifestyle. It is a crossroads of civilisations and cultures that have left their marks on the region, in monuments, architecture, art but also in the traditions, rituals, festivals and daily life. You can still find a world that preserves customs and almost secret, intimate traditions. Wherever you go in Puglia, **music is in the air**, especially in summer, hitting the countryside, towns, villages, palaces, convents, squares and even quarries. It is difficult to resist to the unique and overwhelming rhythms of “**pizzica pizzica**” once only the music played during the ritual to heal the “**tarantate**”, the women bitten by an imaginary poisonous spider, today the **expression of apulian energy and vitality**. Opposite interpretation of the dance: according to the Sacred story the apostles Peter and Paul during their journey of evangelization stopped at Galatina and visited the Basilica, which was from the Middle Ages until the late 50s of the twentieth century, the scene of mysterious phenomena associated with “tarantism”. It was believed that grateful for the warm hospitality received from a pious person St Paul gave the power to heal those who were bitten by poisonous spiders. Folks instead believed that **only some players above all with the sound of the *tamburello*** could help women recover from hysteria caused by this bite. Don't miss the possibility to learn with your **private professional teacher** this funny dance which will let you enjoy **2 hours** of carefree gym. It is possible to arrange **teambuilding performance** for your business event where your delegates will be involved in a ***Tamborello and pizzica challenge***.

Estimated Total time for the activity: 2 hours / Mondays and Saturdays from May to September
