

LAND & FOOD EXPERIENCE

OSTUNI AND THE OLIVE OIL MILL

talea
COLLECTION

TCE023

Meeting with your professional guide and departure for **Ostuni**. Of Messapian origin, the brilliance of its whitewashed houses makes the town stand out as the most typical example of Apulian town architecture. It has a very interesting old town thanks to the Cathedral, Palazzo Vescovile, the Church of S. Maria la Nova and the Sanctuary of S. Oronzo. On Saturday mornings a **nice market** with all typical products of Apulian **craftsmanship** takes place in the modern part of the village, it cannot be missed by shopping addicted persons. During the tour it is even possible to plan a visit to one of the most renowned **masserie** of the area because of **its olive oil production**. After visiting the olive groves where you will admire the fascinating knots of the majestic centenary olive trees, you will visit the **underground olive oil mill** listed among the oldest in Puglia. You will be introduced to the life of a fortified **masseria** following the production and the transformation cycle of olives and at the end you be offered a blind tasting of three e.v.o. biological olive oil on dried and crunchy **friselle**. If you would like to spend some more time in Ostuni, we can arrange for you a **stop lunch** in a typical historical location or in the late afternoon an aperitif in a **trendy lounge bar** of the old town. For clients who cannot afford the steep climbs to reach the centre of the village, we can propose a comfortable 1 hour **apecalessino tour of the city**. It is necessary to book the excursion at the reception. **Estimated Total time for the activity: 6 hours**
