TCE025

Life in Puglia follows the rhythm of the **agriculture** and this land is known for the precious wines with **25 different DOC regions**. In the recent past Apulian wines were considered blended wines, only destined to enrich those of northern Italy. Over the past twenty years, everything has changed and the focus has increasingly been in the **quality of these indigenous wines**. Let's start your Eno gastronomic itinerary discovering the **Primitivo**, a wine of ancient origin. An intensely, fragrant and full-bodied red wine paired with dishes of character widespread in the area of Manduria and Gioia del Colle. In the bountiful country-side of Turi km 29 - 30 minutes from MONOPOLI and POLIGNANO a MARE, this *Cantina* has been producing wine for over 40 years, but it has been for more than 100 years that the family is devoted to viticulture. This Winery, as per company policy, produces wines only from 100% autochthonous vines: Primitivo DOC Gioia del Colle, Negroamaro, Aleatico, Falanghina, Malvasia Bianca, and Malvasia Nera. They are ennobled by an excellent winery technique, respectful of the grape varieties, both in blends and mono-varietals, obtaining authentically Apulian wines, highly appreciated by international palates. You can take guided tours of the winery and wine tastings in the ancient cellar, built in 1882. From Monday till Friday from 09:00 to 11:30 and from 2.30 p.m to 3.30 pm. -It is necessary to book the tasting at the reception 72 hours' notice. **Estimated Total time for the activity: from 60 to 90 minutes according to wines tasted**
From May till October - From Monday to Friday -- closed on Saturdays and Sundays
