CREDITS PH LEONARDO D'ANGELO VIAGGIATE IN PUGLIA

Meeting point in **Alberobello** in Piazzale Biagio Miraglia with your professional guide to stroll around the cosy streets of the old town for 2 hours. Alberobello's striking expanse of trulli was named a UNESCO World Heritage Site in 1996. Narrow, winding lanes weave past small, characteristic piazzas in the Rione Monti, home to the "Siamese trullo" and its unusual, twin-cone roofs, the Church of Sant'Antonio, and the Trullo Sovrano. Must-sees include the Museo del Territorio, housed in a series of interconnected trulli, and the Casa d'Amore, the first building in town to be built with lime and mortar and now a valuable tourist information point. All entrance fees to the trulli must be paid on the spot. At the end of the tour, we can arrange for you a wine tasting accompanied by appetizers from the land or an Olive oil tasting (from Monday till Friday, on Sundays wineries are closed) so to have the occasion to taste delicious local products (light tasting).
