

VINTAGE EXPERIENCE MICE

Half Day tour Alberobello or Monopoli and Polignano Full Day tour Matera or Ostuni

TCM200

Let your delegates act as typical Italians driving a Vintage car around the villages of the Valle d'Itria. Exploring **Alberobello, Monopoli and Polignano or Matera** in Basilicata by a Vintage Car is really a funny Mice Activity for your Corporate Meeting which could be even transformed into an interactive team building competition with the use of the iPad. Each car will be provided with an iPad with 4G connection and geo-localization software. During the route there will be some programmed stops where the teams have to solve all sorts of challenges in order to get the maximum points possible and win the game. Challenge can be: taking a specific picture with a local, filming a creative video, answering a question about local history; indeed, it is a fun and tailor-made sightseeing experience to learn and discover the culture and history of Puglia. The activity is not a race and it remains an "escorted" tour where our technical assistants and professional guides will follow the team. Eventual Stop lunches or Pic Nic will be quoted according to specific itinerary. A Vintage car experience can be proposed to a maximum of 100 participants, starting from a minimum of 05 Cars to a maximum of 40 Cars with 3/2 passengers each.
