

# LAND EXPERIENCE MICE

## LAND ROVER APULIAN SAFARI

TCM201

If you are looking up for the meaning of the term **adventure** into a dictionary, you will find this explanation: “an exciting experience that is typically bold, sometimes risky and undertaking, filled with charm because of the unexpected and unknown outcome”. We do really well know the final result of the Experience we are proposing: let your delegates jump on a fleet of *off-road vehicles* and drive along unbeaten paths, the *Fun Factor* is granted by the unusual approach of the young staff of local adventurers and the *Wow factor* by the exploration of the local rural landscapes! A 3 hours and ½ tour on a Land Rover Defender or a Discovery SUVs equipped with all security systems, which will let them explore Puglia out of the touristic schemes. Particularly fitted for *Team Building activities*, on board of these 4x4 vehicles, attendees will easily feel part of a team involved into an adventurous mission full of adrenaline and culture. We will start from your hotel and follow a circular itinerary through the most picturesque villages of Puglia countryside such as Monopoli, Fasano and Cisternino; after crossing paved roads, the fleet will reach the hearth of a centenary 400 acres olive grove. Plan a pic-nick stop here before going on with the itinerary. Following a second paved route and some other gravel ones, we will finally reach a thick bush in the mid of the countryside where in total security, the driving skills of each team will be tested on a challenging trail supported by the expertise of our escorts. A testing driving activity will be faced afterwards on a professional circuit with ups and downs where the technical approach will be finally mastered by delegates. The activity is for a maximum of 50 participants: Five passengers maximum on board of each Defender with a maximum of 10 cars connected via CB radio. Quote for Food and Beverages on RQ.

**Estimated total time for the activity: 3 hours and ½ + eventual pic nick on rq / Every day upon availability**
