COLLECTION

If you are looking for an activity which might foster competition but even cooperation between teams, **Human Table Football** is for sure the appropriate solution for your business meeting. At Cala Ponte Hotel, the out-door football pitch is adapted with ropes. four for each team of 8 persons, which links clients as in a real table-top. One rope for the goal -keeper, one for the two side-backs, one for the three midfielders and the last one for the two strikers. Players should respect the rules of the game as in well-organized company. They can never detach hands from the rope, never touch the ball with their hands, they cannot jump to reach the ball and hold the ball for longer period; no physical contact is allowed. The activity is up for a team of 16 per match of 90 minutes each. The *golden ball* and the golden goal are even used in the match. The *golden ball* is at disposal of each team and can be thrown by one of the players who is outside the pitch whenever he reposes the right time to help his team to score the goal. It is possible to manage a tournament of a maximum of 4 teams in a day (32 persons), so it is introduced the golden goal when the match is in a tie, but only the goal-keepers can kick the penalties while all players are fixed motionless in the pitch. We can accompany this competition with DJ entertainment or combine with a lunch or a BBQ show cooking. There is the possibility to print the logo of the company on the football jersey or sneakers on request.
