

# LAND & TASTING EXPERIENCE MICE

## APULIAN COCKTAIL COMPETITION

TCM 214

talea  
COLLECTION

It will be strange and fun to discover that if you ask some of the most expert bartender worldwide where they are from, they will tell you they have some Apulian origins. Puglia indeed is very well-known for the presence of the numerous lounge bars dotted all around the old town of our villages, where trendy locals love to socialise sipping a cocktail or a local wine. Now that Apulia life style is very in vogue propose to your Corporate Groups to learn from our appreciated Mixologist how to prepare one of the Apulian cocktails. This is a fun activity to promote the team work spirit and the creativity of each team. We will start to warm up with a cocktail made by our expert barmen and then the group will be divided into different teams to spice up the competition. As soon as the teams are created, our bartenders will explain the rules of the game as well as they will give some advice and tips to learn the elaboration of the cocktail. But they do not only have to copy for instance the bartender in the preparation of his Apulian oyster martini, but each team is expected to choose a secret ingredient to make its own signature cocktail to be paired with an entrée of crudo, the raw crustaceans that have been an Apulian delicacy for centuries or with some other typical Apulian dish. This experience is up for groups from 10 to 50 people. The reward for the winners: a nice fresh cocktail! We can accompany this competition with a DJ entertainment or combine with a lunch or a BBQ show cooking.

**Total time for the activity: 2 hours**

Minimum 10 participants PRICE PER PERSON- starting from	€ 30,00 + VAT 22%
